

SandBoxer Landing Page v1

Above The Fold

整个背景是一张温暖的黄色笔记纸。

有轻微纸张纹理。

页面四周散落着：

- 手绘箭头
- 便利贴
- 草稿批注
- 产品框图

整个页面看起来像一个创业者的工作台。

左上角

[手绘 Logo]

SandBoxer

A notebook for products that don't exist yet.

右上角

Sign In

Start Building

中央 Hero 区

超大标题：

Build the right thing before building anything.

副标题：

Transform vague ideas into startup blueprints.

Vision-first product design for creators, indie hackers, and low-code founders.

下面不是 CTA 按钮。

而是一张巨大的手绘输入卡片。

 What are you trying to create?

Placeholder:

"I want to build..."

"What if..."

"Imagine a product that..."

输入框下面

[Start Exploring →]

按钮像手绘便利贴。

Hero 右侧

不是插画。

而是实时展示一张 Blueprint。

用户可以看到：

Idea ↓ Vision ↓ User ↓ Problem ↓ MVP ↓ Blueprint

逐步生成。

让用户立刻理解产品价值。

Section 2

Why Products Fail

标题：

Most products fail before the first line of code.

下面是手绘风四个卡片：

✗ Too many features

✗ No clear user

✗ No vision

✗ Constant drift

中间用手绘箭头连接。

Section 3

The SandBoxer Method

一条横向路线图：

Idea → Vision → User → Problem → MVP → Constitution → Blueprint

每个节点像便利贴。

鼠标悬停时显示说明。

Section 4

Product Constitution

整个 Landing Page 最重要的一块。

模拟真实界面：

📄 Product Constitution

Vision

Core Principles

Success Metrics

Forbidden Features

展示：

Vision: Help creators launch their first product.

Forbidden: Social network Enterprise CRM Complex permissions

Success Metric: First sale

旁边一句话：

Every project needs gravity.

Section 5

Before / After

左边

Founder's Mind

混乱草稿：

各种箭头乱飞。

右边

SandBoxer Blueprint

清晰结构：

Vision

User

Problem

MVP

Roadmap

用户一眼就懂。

Section 6

Built for Dreamers

三个大卡片：

 Content Creators

 Indie Hackers

 Low-Code Founders

不是讲功能。

讲身份认同。

Section 7

Interactive Demo

用户输入：

"I want to build..."

系统展示：

Vision

MVP

Constitution

实时生成过程。

这是 Landing Page 的转化核心。

Final CTA

黄色纸张背景变成一整页空白笔记本。

中央：

Every product starts with a thought.

Start your blueprint.
